Here is a very efficient application that will help you to memorize the basic phrases in English. I saw that there were a couple of applications in the market that do the same thing as it is the basic thing that we do when we learn a foreign language, we memorize the basic phrases so that we can have basic communication in that language. In this app you will memorize the basic words and you will also practice to pronounce them correctly. This will help you to recognize basic words when you come to that language. So this app is very practical in its purpose and for that reason I wanted to give it a very good review with the hope of your giving it a chance in this very competitive market. The application works by recommending phrases to memorize. You are in control of the application and after each day you will be asked to choose what you would like to memorize. Once the application has an idea of what you would like to memorize, it will suggest a "word" that will go with this phrase and then ask you to correct the incorrect parts of the phrase. You will also be given suggestions if you want to change the word to fit better with the phrase that you are memorizing. If you continue to use this application it will improve over time, it has a database that will grow over time with new phrases that you could memorize. The application is compatible with Windows 8.
