Release Date: September 27, 2019 Platform: Playstation 4, Nintendo Switch, Linux Region: Worldwide Descending to a mysterious and hidden underground city, one is horrified to encounter a group of strange outcasts, who share a penchant for blood and a cryptic sense of humor. A terrifying predator hunts them through the city, leading them ever closer to an unknown and deadly truth... Twenty-one years ago, Roger Craig’s wife Patricia was murdered in a strange, ritualistic act of crazed depravity. He has since spent his life, along with the rest of the world, trying to put it all back together

again. A rich, famous, and incredibly ill-tempered man, he lives in a beautiful mansion with a labyrinth of corridors and hidden passageways. His housekeeper, Margaret, has devoted her life to tending to him and his home. But now, finally, he's about to receive something that should make the end of his life complete: A daughter. A young, healthy daughter. There's just one problem: He can't stop her from bleeding to death. At The Tattered Cloak, Roger Craig claims to be his servant. But with Roger's corruptions gradually mutating his body, Margaret's daughter Kate and her party of pals stumble across something terrible, something that will irrevocably change the Tattered Cloak forever. To their horror, the girl they found is actually an elaborate host, whose "blood" is the promise of some unknown, perhaps supernatural, destiny. The magical girl woos and bewitches her friends with her mischievous smile and endless talent at manipulating others... Ever since discovering the first Runet games, Hiromu Arakawa has been obsessed with crafting her own RPG-like experience. In this case, it's "Cyberpunk", a game that comprises a cyberpunk setting, connected to a story, concepts, and characters that are all from her own c9d1549cdd
