Procedurally Generated Universe Dozens of galaxies, each containing at least four habitable planets that each have their own unique characteristics, themes and local lore. Travel from planet to planet, collect ore, build upgrades, fight and run from bounty hunters and much more. Deep Combat System Hundreds of ship, weapon and station types that are all available to be built and upgraded. 3 Different Star System Types, each with their own unique planets and local atmosphere, and customisation system. 16 Missions per mission type to run through. 4 Campaigns to play through on multiple difficulty settings that range from building the next generation of rebel base, through building up a small business empire to holding off a Terran "Black Legion" invasion fleet. An in-game Radio This in game radio system allows you to choose from a variety of DJ's and feature guests from the in-game space

news. New types of stations are unlocked as you level up. Trading System You build up a cargo list, or choose to do nothing and let your ship run low on fuel. Once your ship has collected a list of items on the delivery list, you can set a price for your items and make a deal with your potential client. Every ship has a fixed cargo capacity, so it's important to calculate the cost/benefit ratio for each deal. The Crucible All battles will be listed in the galaxy map, with each match having a unique star system. A match begins when a match banner is displayed in the galaxy map. Each match starts with a pre-game lobby, where you choose your ship. When you land, you can choose to dock your ship, and teleport to your player's ship, or engage the other player's ship in single player combat. The combat is turn based and you can move your ship around as you see fit. Once the pre-game countdown timer is complete, the match begins. The

ships fly around in the galaxy and occasionally their paths cross. If they do, both ships fly straight into each other, colliding into a state of mass and energy. Sometimes the resulting explosion is big enough to cause collateral damage, reducing the amount of ore the player collects. The match concludes with a post game lobby where the remaining players can dock their ships. Any ore collected is given to all the players based on percentage. The Macrabbitt - xchip

ADAM Potentia ADAM (or) was a Spitz neighborhood developed by Potentia City LLC, a subdivision and community on Staten Island, New York City, in 2000. It is located north and south of Seaview Ave. on North Point Boulevard and holds 3 commercial streets and a large number of single family homes and townhouses. Potentia ADAM was named after Potentia City's Vice President, Adam Dimaio, who oversaw the success of Potentia's construction. Potentia ADAM is the second neighborhood in the East Shore of the Island and was built in a span of six years, starting in 1994. It consists of five residential houses that retain their meticulous detailing while being strong white framed wood structures. Their house numbers range from 270-284. Many of the streets are named after Roman Consuls and Roman Emperors, mainly ones that lived under Rome's legendary leader Romulus Augustulus. History Potentia ADAM was once home to a group of residential actors, writers, model makers, makeup and wardrobe and set designers. They include Adam Dimaio, Marilyn Moskowitz, Barbara Cabot, Marty Mendelbaum, Jed (Cabot) Johnson and Chris (Cabot) Placentino. A number of potter's houses are located on Birchhurst Rd. and North Point Boulevard. They create wonderful art work from the many types of wood and other materials they are made from. They have a Bamboo-Wood Tea Cup from China, Brooklyn Glass, China, Sterling and many other countries. Their names range from Henry's, Helen's, Mary's, Joe's, Len's, Sam's, Bob's and Florence's. Starting in 1998, the neighborhood faced volatile real estate prices and maintenance due to the failure and subsequent closing of adjacent arson factory and auto body shop Dimaio Brothers Inc. with a high correlation to the neighborhood's quality of life. The evacuation of Dimaio Brothers Inc. is known for its drama, publicity and lawsuits. It was the first lead role Dimaio played in a movie, which was directed by Eddie Burns. It was a controversial movie that was released in 1999. In 2002 Dimaio Brothers filed for bankruptcy in 2001, but the bankruptcy was not approved until 2002. The new owners sold the business in 2004 to Schenectady General Electric for half the debt. Randal Dimaio founded Randal D

I just don't wanna take a chance of not being able to do that, that's why I still order it. You can download it via Steam or Direct link. There's not much difference between them as it's all mde by Valve. Anyway, Steamworks has gotten much better and I am yet to have a legit problem with it so yeah. Steam hasn't updated either but I've been upgrading. I've had a few timeouts but nothing major. But if it works fine for you then great. I hate using the Direct Link so I'll stick with Steam.
