Reviews "Warriors of Thor's Hammer has always been a name that stood out to me from the very first time I saw it. While a very cool name with a very religious meaning, it did not feel as strong as it should have. Now, having been able to play this game for 2+ years, it finally feels like the game has been polished, and has finally reached its potential. The Barbarian and Valkyrie PvP is probably the craziest I have played in any MMORPG, and the bosses feel like a great challenge. There is absolutely no shortage of content in this game, and the game is worth the price you pay for it. For those who have not played this game before, I would seriously consider jumping in and playing for a few days, seeing how it fits in your playstyle. This game has a ton of depth, you will not be bored unless you're a simpleminded moron. Overall, it is a game that I highly recommend playing, and I will be back for many more hours." "All of the elements are there to make an MMO that can put a smile on the face. As a fan of the genre, there are so many aspects I love, but there are also some that will likely turn me off. If you, like me, love the story and lore behind games like Elder Scrolls, Stormrise has you covered. It has a very well thought out world with a great story line to back up each character class, with great voice work as well. Gameplay wise, I think this has the potential to be an extremely fun game. I would say it's like playing a similar version of classic PC games. The questing is fun, the class system has potential, and the bosses are good." "I will be the first to say that I am not some uber-uber-uber-uber-uber-uber-uber-uber-uber-uber

"Why It's Empty Here: The Game" was a running gag in the British TV series The Goodies, written and performed by Bill Oddie. The joke revolved around things appearing and disappearing at the Friar Park estate in Berkhamsted, Herts, England. A pool of water mysteriously appeared on one of the grounds, and would fill and be renewed almost every day. Other humorous events occurred on the grounds as well, including an enormous trampoline and a highway. In one episode, a featureless box of Swatch watch batteries mysteriously turned up in the grounds, and Oddie wrote a song about it with fellow Goodies singer Tim Brooke-Taylor. In another episode, a game of Russian roulette was introduced to move things around whenever Oddie wished to spread a mysterious disease among the Forsytes, an upper class family. In the third series finale, Oddie's character gave a television interview about the show's history (thereby re-rebroadcasting the opening episode "The Second Time Around"), explaining that because he'd made the house into a featureless stadium, visitors no longer turned up at the estate. Plot In The Goodies, it is explained that Bill Oddie and Tim Brooke-Taylor had written a puppet show for Satirical Quiz Productions called Storytime. Storytime was about an Old West competition to find new stories, a group of characters who invent new stories in order to get enough points to be chosen. Oddie became a cowboy called "The Hero", Tim Brooke-Taylor was a Native American chief called "Goggles" (because he was wearing a pair of spectacles), and they performed it about a white Anglo-Saxon foundation called "The English" getting destroyed by a tribe called "The French", with both bands playing foosball. Unfortunately, The English series took a Christmas break and were unable to produce any more jokes. A matter of weeks before Christmas, the English-French foosball game would be broadcast. Roald Hardiman, Producer for the show, was looking for new material to insert into the series, and thought Bill Oddie had written some funny things. He met Bill to discuss it, and was impressed with them, despite the fact that Bill had very little writing experience. A deal was struck whereby Hardiman would pay for any jokes that Bill Oddie came up with. Later, at the end of the Christmas episode, "
