References Category:Rural localities in Volgda Oblast[] How to check a string against a list of values? I am trying to check if a string value is within a list of values. I have tried a few different things but the it does not seem to be searching the list for the sub-string. Instead, it returns an index error. How can I check that the string value is within the list? First function: jCheck if the vehicle is in a Parking lot: jCharge this when you need to use a different "vehicle" variable string vehicleType = "Car"; jCharge this when you need to use a different "stockroom" variable string stockroom = "CAR"; public void CheckStockAvailable(string vehicleType, string stockroom) { if (vehicleType == stockroom) { int stockAvailable = 0; foreach (vehicle location in stockroom) { if (location == stockroom) { stockAvailable = 1; } } return stockAvailable; } } A. Change your Code to public void CheckStockAvailable(string vehicleType, string stockroom) { if (
