(For example, here's all of the news I've written this month, which is actually, um, an increase in the time I've been writing...) Anyway, this year's Stratego season was, to put it kindly, a bust. My poor John was amazing for just a few days and then rolled over and died, but I got a lot of great games with him. My usual opponents went on vacation and didn't come back, so I was stuck with some of the local high schoolers and teenagers who had come up to GWTW and loved our game. Some of them were really, really awesome, but they were also just a bit dumber than I'd expected them to be, so I got my ass kicked. In fact, the only game I won was one I threw at my girlfriend's mom (!). If you're in the Washington, DC area this weekend, the GWTW Stratego Tournament is happening at a local bar. I'll have a table for the first couple of rounds, and I'll try to make a bit of a game out of it, but there will be no drawing and no awards. Just a bunch of people playing and trying to face off in the great game of Stratego! If you're interested in coming, please let me know in the comments. I'm looking forward to seeing you, and if you have a cool design that you'd like me to critique, please feel free to send it my way. The next couple of rounds are on Sunday, June 3rd and will be webcast here. See you then! -John (Photo credit: Wikipedia) 1. @PassedDateTime = '2014-06-14' Stored Procedure 1 SET ANSI_NULLS ON GO SET QUOTED_IDENTIFIER ON GO create procedure dbo.GetXYZ @PassedDateTime varchar(max) as begin select @PassedDateTime as PassDateTime end Stored Procedure 2 SET ANSI_NULLS ON GO SET QUOTED_IDENTIFIER ON GO create proc [dbo].[UpdateDailyCount] @PaswdDateTime varchar(max) as update dbo.SalesDailyCount set [DailyCount]=@PaswdDateTime It is throwing error as : String or binary data would be inserted into a CHARACTER column,

except for a column declared with the type CHAR(MAX). and when i passed date in update dbo.SalesDailyCount set [DailyCount] ='2014-06-14' it throws error : The parameterized query '(@PaswdDateTime varchar(max))' expects the parameter '@PaswdDateTime', which was not supplied. A: DateTime is a stored data type, it cannot be sent as a parameter. Instead create your stored procedure like this. 6d1f23a050
